GENERAL NEWS OF THE WEEK

Gathered From Here There and Everywhere.

Summary of What has Just Occurred. Accidents And Incidents

A press dispatch from Tacoma, dated June 1st say: Indications at this time point to the hop crop of the northwest being at least 25 per cent short of the usual harvest. Reports from all over the state are to the effect that the hop yards are in very bad shape. The season is nearly a month later than usual, due to an extremely backward spring, and the vines have not yet made much growth.

Many of the hop hills present a decidedly sickly appearance. Chas. Carpenter, one of the leading growers of Yakima valley, who has made a careful study of conditions this spring, says that all the farmers are complaining about the condition of their yards.

He has examined several yards and found them in poor shape. Carpenter is of the opinion that even the most favorable weather will not now pull the crop out.

Announcement of the expected shortage in hops has caused brokers to become exceedingly busy contracting with growers for their full crops. It is expected that first quality hops will bring better prices than for years past.

From the Wheatland hop district we have the following under the same date: The hop crop will fall short and is backward. The vine growth the early part of the season was unusually fine and the growers figured on an immensely heavy crop. All the early growths are now burring out. These vines have not yet reached the top wires. The later training is not yet burring but the growth is slow and it is feared that both early and late training will make less than half a normal growth.

Decoration Day.

Decoration Day was observed in the usual manner last Saturday, The veterans of the Civil war, both Federal and Confederate and also a number who served in the Spanish war, marched thru the principal streets headed by the Ukiah Band, and followed by the Relief Corps, and a large number of school children. The procession was met at a convenient place by vehicles of various kinds, and all proceeded thence to the cemetery where the usual service was held by the ladies of the Relief Corps with song and other exercises by the school children under the gnidauce of the teachers, Misses Price and Ganter. Rev. W. W. Pew officiated in the devotional services. Flowers were then strewn upon the graves of all soldiers, and many others availed themselves of the occassion to decorate the graves of departed friends and relatives. Misses Price and Ganter deserve great credit for the interest they took in training the children,

Railroad Foolishness.

The locomotive engineers on the Southern Pacific lines in this state are indignant over a trick that is being played on them by their division superintendents. False danger signals are being suddenly displayed at night, when engineers have scarcely time or space in which to stop their swiftly moving trains, and some engineers have been discharged because they failed to stop within the short limit. This reminds us of the story of slavery days, of a big negro man who was being baptized by immersion in a river. The big burly fellow slipped from the minister's grasp and as he could not swim came near drowning. Finally he came up sputtering and was hauled ashore by the bystanders. As soon as he spit out water enough to be able to speak, he remarked indignantly, "Somebody 's a goin to lose a val'able nigger by this d—d foolishness some day." Thats the way it is with the railroad company. Some valuable engineers, firemen and passengers are liable to be killed by this foolishness.

Gathering of the Eastern Star.

On last Monday Lyman C. Byce, accompanied by Mrs. Byce, came up from Petaluma en route to Lakeport to attend a big rally of the Eastern Star chapter of that town. Mr. Byce is Grand Patron of the order and this was the occasion of his official visit. On arriving at Ukiah he found quite a number of the ladies of Kingsley chapter No. 58, of this city prepared to go with him to Lakeport. So on Tuesday morning the party started for the city by the lake, full of enthusiasm and determined to have an enjoyable time. The party consisted of Mr. and Mrs. Byce, of Petaluma, Mesdames Barker, Smith, Perkins, Thatcher, Day, McMullen, McCowen, Carpenter, Horton, Elledge, and Misses Kelton and McCorquedale, of Ukiah. The meeting was held at Lakeport Tuesday night and the returned Ukiah ladies report that they had a splendid time and were royally received and entertained by their sisters of the neighboring city.

Was It J. Wilkes Booth?

A story comes by wire from Enid, Oklahoma, that the remains of a man known as David E. George, who committed suicide there January 4th, have been positively identified as those of J. Wilkes Booth, the assassin of President Lincoln. Junius Brutus Booth, a nephew of the assassin is said to have procured the identification.

According to Mr. Booth's story he acted as Booth's confidential agent and attorney for nearly forty years. After Lincoln was shot the assassin escaped to the Garrett plantation in Virginia. According to Mr. Bates the man who was killed in the memorable fight at Garrett,s barn was named Ruddy. Being warned, Booth left Garrett's and was taken care of by friends in central Kentucky. He later settled in Glenrose Mills, Texas, where he conducted a store for several years as John St. Helen.

Overland Stage Upset.

One night last week Franz Grothe, of Bell Springs, was substituting as driver on the Overland stage. One of the four horses did not behave properly and caused a great deal of trouble. Finally the stage upset and rolled down into the gulch, piling the horses in a promiscuous heap. Mr. Grothe was caught under the stage, but managed to get out and summon help. It was found that none of the horses were seriously hurt and no great damage was done.

Baseball Game.

The baseball game next Sunday between the Ukiah and Santa Rosa teams promises to be the hottest game of the season. Let all lovers of our national game attend and help swell the gate receipts. The lineup is as follows:

Miss Grace V. Mathews, of this city, who has been visiting in Santa Rosa for a few days, left there Tuesday for San Francisco to take the steamer for Everett, Washington, where she is to spend the summer with relatives.

In the Superior Court last Monday morning Attorney Chas. Mannon made quite an elaborate argument upon the question of the constitutionality of the act of the last legislature which provides that in divorce cases the final decree of divorce shall not be entered until one year after the decision in the case. The law has already been decided unconstitutional by one Superior Court, and Attorney Mannon took that view in his argument.

CELEBRATION NOW ASSURED

Splendid Attractions all day and at Night

Ukiah Will Outdo All Previous Occasions on July Fourth.

The arrangements for a splendid celebration in Ukiah on July 4th have now been perfected, and from the present outlook it will eclipse all previous occasions.

The day will be opened by a salute of twenty-one guns at sunrise and closed by the same number at sunset.

The parade is scheduled to begin at 9 o'clock a. m. sharp. The committee will furnish the floats for California, Goddess of Liberty and the States. There will be prizes of $25, $20, $15, $10 and $5 for the best private floats.

The town will be profusely decorated and the line of march will be thru the principal streets of the town. After the parade the crowd will assemble in front of the courthouse, where the literary exercises will take place. The Ukiah Silver Cornet Band will enliven the scene by discoursing patriotic airs. The literary program will consist of an invocation, songs, reading of the Declaration of Independence and an oration by some renowned orator.

After dinner the Mendocino and Lake County Indians in native costumes will give the famous Sun and Ghost dances.

The athletic sports will take place from 2 o'clock until 5 and will be as follows:

PROGRAM OF SPORTS.

50 yards dash for boys under 12 years. Prize value..	$2 00
100 yards dash for boys under 16 years	4 00
50 yards dash for girls under 12 years	2 00
50 yards dash for young ladies	4 00
50 yards egg race for girls under 12 years	2 00
3-legged race for boys under 14 years—50 yards	4 00
75-yard sack race (contestants furnish sacks)	5 00
100-yard dash—open to all amateurs	20 00
75-yard dash for men over 40 years	10 00
50-yard dash for fat women	5 00
75-yard dash for fat men over 230 pounds	10 00
100-yard dash—free for all	20 00
Standing broad jump, without weights	4 00
Standing hop, step and jump	4 00
Pursuit race for eight Indians around court-house square, started at equal intervals, and a contestant to drop out when touched by a pursuer. The last to touch a competitor to be declared the winner	25 00

Entries for the above events to be made with F. L. Caughey on or before 6 p. m. on July 3, 1903.

After the sports, a grand aggregation of monstrosities, familiarly known as "Growlers," will vamose up and down the comina with carrajos on their backs. Prizes to the amount of $75 will be given for the best characters in the "Growlers."

The day will close with a grand ball, which is destined to be the swellest thing of the season.

The town will be spectacular with the dazzling effect of electricity in the evening. In fact,

"The night shall be filled with music,
And the cares that infest the day,
Shall fold their tents like the Arabs
And as silently steal away."

And the biggest crowd of us won't go home till morning, and possibly not go home at all.

Death of Mrs. Mary Ruddock.

DIED—In San Francisco, on Sunday, May 31, 1903, Mary Ruddock.

The above notice announces the death of the mother of our fellow-townsman, J. C. Ruddock. At the good, ripe age of 79 years, fifty years of which were spent in California, she passed from life to eternity. She was the mother of eight children, nearly all of whom were born at Jamestown, Tuolumne county.

With her husband she experienced a pioneer's life in the mines of California, with all the incident hardships of those early days. Her vigor of mind and body were retained to the last and, despite her great age, time had not yet silvered her hair.

Her husband and five sons survive her. Her great desire was to have her children educated, and she prevailed on her husband to quit the mines and move to San Francisco, where this desire could be gratified.

She never forgot her duties as a Christian, and was dressing for church when her final call came. Her eldest child was a daughter, who died some five years since, the mother of the telephone manager for this district, J. J. Barricklo. The youngest child was a daughter, dying in infancy.

Ben J., a son, who taught school at Caspar and Hopland, in this county, died in 1884 while a student in the medical department of the State University.

John C. was notified on Sunday evening last, and left on Monday morning to attend the funeral.

A noble woman is gone, with her life-work well accomplished.

Services were held on Tuesday last, in St. Mary's Cathedral, San Francisco, and the interment was in the family plot at Holy Cross Cemetery in San Mateo county. M.

Lost on the Way.

Peter Lange arrived in Ukiah Wednesday night from Copenhagen, Denmark, having had a curious experience on the way. He was traveling in company with a cousin of George Haugsted of the Arlington Hotel. In taking the train at Chicago the two became saparated, one taking the rear section and the other the front. They did not meet on the way. Lange stayed one night at the Palace Hotel in San Francisco, then he showed a card upon which was written "George Haugsted, Arlington Hotel, Ukiah," and was assisted to the train. He could speak no English.

The Eastern Disasters.

Right on the heels of the destrnctive blizzards and tornadoes which swept over the states on the eastern slopes of the Rocky mountains, which killed many thousands of sheep and cattle, have come the springs calamitites of flood and storm. There began the latter part of last week, continueing into this, a series of floods on the Missoui and Mississippi rivers and their larger tributaries, undrecedented in their destructivesness. While scores of towns and millions of acres have suffered, the points attracting most attention are Topeka, Kansas: Kansas City in Missouri and Kan sas, and Des Moines, Iowa. Large portions of these cities have been flooded and there has been fearful loss of life and property. In Topeka fire broke out during the flood and many houses were burned to the water's edge and nothing could be done to save them. Expensive bridges were swept away like shingles and the total loss runs high into the millions in property and hundreds of lives. In other sections of the middle west cyclones are working havoc. At Gainsville, Georgia, on Monday at noon, a cyclone demolished 200 building, many of them large and expensive buildings, and killed about 100 persons, besides doing much damage outside the city, and in nearby towns.

And the end is not yet. The floodwaters of the upper country have to pass on down to the Gulf of Mexico and there will be loss and destruction all the way. Famine and perhaps pestilence will follow and the extent of the calamity is incomputable.

Chamberlain's Colic, Cholera and Diarrhoea Remedy

Is everywhere recognized as the one remedy that can always be depended upon and that is pleasant to take. It is especially valuable for summer diarrhoea in children and is undoubtedly the means of saving the lives of a great many children each year. For sale by J. R. Matthews Drug Co.

The Commoner.

(Mr. Bryan's Paper.)

The Commoner has attained within six months from date of the first issue a circulation of 100,000 copies, a record probably never equaled in the history of American periodical literature. The unparalleled growth of this paper demonstrates that there is room in the newspaper field for a national paper devoted to the discussion of political, economic and social problems. To the columns of The Commoner Mr. Bryan contributes his best efforts; and his review of political events as they arise from time to time can not fail to interest those who study public questions.

The Commoner's regular subscription price is $1.00 per year. We have arranged with Mr. Bryan whereby we can furnish his paper and THE DISPATCH together for one year for $3.25. The regular subscription price of the two papers when subcribed for separately is $3.50.

Worst of All Experiences.

Can anything be worse than to feel that every minute will be your last? Such was the experience of Mrs. S. H. Newson, Decatur, Ala. "For three years," she writes, "I endured insufferable pain from indigestion, stomach and bowel trouble. Death seemed inevitable when doctors and all remedies failed. At length I was induced to try Electric Bitters and the result was miraculous. I improved at once and now I'm completely recovered." For Liver, Kidney, Stomach and Bowel troubles Electric Bitters is the only medicine. Only 50c. It's guaranteed by J. R. Mathews Drug Co.

The Winter Route East.

An erroneous impression prevails that because the Rocky Mountains have a high elevation, the winter climate is cold and snowy. The fact is, the average precipitation of moisture during the entire year is less than fifteen inches, and danger from snow blockades on the railroad very slight. This is especially true of the Denver & Rio Grande, over which System travel has gone with less interruption for the past ten winters than upon the majority of lines popularly supposed to be free from such delays.

Old Winter but adds to the majestic beaut of the mountain scenery along the way. It brings no fear nor discomfort to the traveler on the "Scenic Line of the World."

Our personally conducted daily excursions are operated all the year ound and are cheap and comfortable means of reaching all parts o the East.

Field Fire in Glenn County.

A Willows, Glenn county, dispatch of last Monday said:

Fire swept over 5,000 acres of Glenn county to-day, working damage to the extent of $26,000 on pasture fields and fences. The hay fields on the Houchins place and 3,000 acres of pasture were burned, and then the fire entered the big grain fields on the Quint ranch. It was only by the heroic efforts of the townspeople, who by that time had arrived from Willows, that part of the fields were saved.

The fire started from the burning of a cabin on the Houchins ranch, occupied by an old sheepherder, who is missing. On the Houchins place the loss will be about $10,000. Quint's loss will be at least $14,000 on wheat and $150 on the fence that was burned.

Ten Mile Tidings.

TEN MILE, May 29, 1903.

Ernest Redemeyer contemplates a trip to Cahto next Sunday.

Arthur and Jimmy Tracy passed thru Ten Mile Wednesday.

W. B. Burns and L. Grothe were seen in our midst one day this week.

A party of road men under overseer L. Wilson have been making the earth fly along our highway for the last few days.

Robt. Glenn and son-in-law tarried Thursday night at Ten Mile hotel.

Mr. H. Knighten has lately been visiting the family of W. C. Streeter.

Miss Harriet Taggart has been suffering with an attack of la grippe, but was recovering at last accounts.

Chas. Wilson departed Thursday from our midst and we can truthfully say he will be greatly missed. Chas. has recently changed his occupation from that of heart breaking to bronco breaking, but we fear the change will not be permanent, so Westport girls, beware—we give you fair warning.

A. Simpson still occupies a commanding position on a lofty knoll near White's. Rather a healthy looking victim for a pest house.

What Has Transpired This Week In The Fog Belt.

MENDOCINO PICK-UPS.

From the Beacon.)

J. E. Sutch head of the Fort Bragg labor union, returned Wednesday from a short trip to the city. He was down from Fort Bragg yesterday.

Earl Thurston, who has been an employee on the Ukiah Dispatch for some time, came over to Mendocino for a visit the first of the week.

Two children in the Mattson family on Albion ridge died of diphtheria last week, and as a consequence the Albion and Navarro schools have been closed. No new cases have been reported, and it is hoped that the epedemic will not continue.

The employees ot the local mill are now having a taste of what they enjoyed before the ten-hour schedule was introduced on the coast. Since the middle of last week the mill has been running eleven and one-half hours each day. The employees get paid for over time, however, and the change is but a temporary one made on account of a rush of special orders. The change serves to impress the average laborer of the blessing of the shorter working day.

The commencement exercises of the Mendocino high school Thursday evening, as usual, called out as large an attendance of representative people from up and down the coast as has gathered on former occasions to show their good will and appreciation of the school, its faculty and its students, and to be in turn entertained by the graduates and their friends.

The address by Mr. Alex B. Coffey, of Stanford university, was the piece de resistance of the evening's program, and his effort proved that the class had made a wise selection. Mr. Coffey is a good speaker. He has a homely but pleasing style that wins the confidence of the listener. Full of humorous incidents and amusing illustrations, his talk was overflowing with good sound advice clothed in every-day language. His effort was well received by the audience as well by the class. He was vigorously applauded, which was continued until he was brought to his feet a second time.

Monday Mrs. Benj. Bever, while passing from the Bever garden lot on Littlelake street to J. Davis' residence, was attacked by a large dog belonging to Mr. Davis and painfully bitten about the face. Mrs. Davis had called to Mrs. Bever to come over to the house, and as Mrs. Bever stepped onto the porch the dog, suddenly startled emerged from the woodshed and made the attack. Fortunately, the cuts from the teeth are not deep and no serious results are anticipated.

PT ARENA CULLINGS.

From The Record.

Herman T. Miller, a brilliant young orator of San Francisco, has consented to deliver the oration at this place at the coming Fourth of July celebration.

Ira James fell from a logging train in the Elk creek woods on Monday and was badly hurt. He was taken to the home of J. H. Shibley, but the full extent of his injury is not known at this writing.

The stockholders of the Bridgeport creamery held their annual meeting Tuesday last. The reports of the officers were most gratifying, showing the concern to be a profitable investment. Last year the creamery sold butter amounting to over $14,000, and the outlook for the coming year is most encouraging. The following directors were elected: J. D. Caughey, A. Newfield, J. W. Hall, John Welsh and Joseph Welsh. The directors met and organized by electing J. D. Caughey president, A. Newfield vice-president, J. W. Hall secretary and John Welsh treasurer.

A large number of our residents—young and old—are suffering from measles. Only one serious case has developed, that of Florence Halliday. She was recovering from an attack but had a relapse, which has developed into pleurisy and pneumonia, and the greatest anxiety is felt for her recovery. At present writing she seems to be resting easier, but a few days are yet to elapse before the outcome can be safely predicted. It is to be sincerely hoped that Florence will have vitality to withstand the trying ordeal and again be restored to perfect health.

Two cases were tried at Mendocino last week, in which Thomas Rhodes prosecuted and George D. Young defended. In the case of the People vs. George Goomes the jury stood eleven for acquittal and one for conviction. The case tried immediately after was that of the People vs. Victor Thompson, the jury acquitting Thompson.

Write Us A Letter

We want to advise with people who are sick and want to get well. A person that says "I would give $50.00 if I felt as well as I did one year ago," is the one we are after and we do not want the $50.00 either. People that suffer with nervous diseases have weak watery blood, with sallow complexion, and a tired, outdone nervous-feeling, loss of sleep and anxious days cause waste of flesh and strength. Pimply, pale, weak people can be cured with Dr. Gunn's Blood and Nerve Tonic, it makes rich red blood, feeding the nerves, and making solid flesh at the rate of 1 to 3 lbs per week. This Tonic is in tablet form, and is sold for 75 cts per box, or 3 boxes for $2.00, by all Druggists, or sent by mail, on receipt of price. We will send a pamphlet that tells what diseases this Tonic will cure and what it is good for, free. Write us about your case, that costs nothing. Address, Dr. Gunn, Philadelphia, Pa. For sale by J. R. Mathews, Druggist.

A Famous Sick-Headache Remedy

The cause of this complaint is not in the head at all, it comes from the stomach. A stomach that has become clogged up by over eating, drinking, or abuse in any manner, will warn you by bringing on sick-headache, are the pains and distress in the stomach, and the headache stops of itself. All billious attacks, dyspepsia, belching, bad taste in the mouth, muddy complexion and yellow eyes, are cured by this Remedy. It is called Dr. Gunn's Improved Liver Pills, and is sold by Druggists all over the U. S. for 25 cts per box, one pill for a dose or we will send them by mail on receipt of price. Samples free. Address Dr. Gunn, Philadelphia Pa. For sale by J. R. Mathews, Druggist.

A LITTLE NONSENSE.

The Result of a Married Woman's Reform Movement.

Once upon a time a noble woman, young and beautiful, married a man to reform him. He understood that it was going to be done and, knowing that he needed reform, accepted the programme with great enthusiasm. But at the end of six months a friend of the bride met her and asked her how she was getting along. She sighed.

"I regret to say," she replied, "that the course of events has not quite justified my expectations. In New York it is very hard to keep a man from taking a drink, especially on Sunday. But reform takes time. I am still hopeful."

At the end of another six months her friend again met her and asked her how she was getting along. Again she sighed.

"Draw poker and horse racing," she said, "present problems which we reformers have not yet been able to solve. However, I am proud to say that I have succeeded in making my husband quite uncomfortable. If he had to choose over again, I believe he would reject the reform programme by a majority of one. This shows that I have made an impression on him. Give me time. But it is weary work. If there were another election, so to speak, I do not know that I should care to be a candidate."

Another six months passed away. Again her friend met her.

"How is your husband?" she asked.

"Oh, he's quite cheerful and happy."

"Indeed! Reformed?"

"No; gone to Dakota. He has made up his mind that he wants a change of administration."—New York Times.

CITY OF UKIAH'S GOOD

CLOTHES FOR BOYS

Boys clothing is an important matter to the fathers and mothers who have to buy them. Youngsters wear out lots of clothes, therefore it is necessary to get for them clothes that are made to wear and not just simply to sell.

We buy our boys clothing from makers of boys clothing only and the best and largest boys clothing factory in the world, Ederheimer, Stein and Co., Chicago. That is the reason that you get better clothing here for boys, and, buying as we do, direct from the eastern makers, we can and do sell boys good clothing for less money than you can get them of inferior grade elsewhere.

COVELO NEWS.

COVELO, June 1, 1903.

EDITOR DISPATCH-DEMOCRAT: You already have a partial report of the destructive fire in Covelo last week, but I send some further details.

A most heroic battle was fought to save the rest of the town, and it is almost impossible to say too much in praise of the many disinterested young men that fought the fire like their lives depended upon its subjugation. The detailed losses will approximate as follows:

Covelo Mercantile Co.—Loss, $10,000; insurance, $6,000.

Masonic Lodge—Loss, $4,500; insurance, $2,000.

F. A. Doyle—Loss, $3,500; insurance, $2,000.

William Osborn—Loss, $1,209; insurance, $600.

Charles Heminway—Loss, $1,200; insurance, $600.

F. M. Thomson, owner of the three burned buildings (drug-store, saloon and blacksmith shop), worth about $2,500, with a small amount of insurance on the saloon.

Oscar Cochart—A small unoccupied dwelling almost worthless.

The O'Neil house—No insurance.

The total loss to our people amounts to $9,700, and the business center of Covelo is left a blackened ruin.

About 2 or 3 o'clock Friday morning W. G. Gill walked out of the window of his room in the Duncan dwelling house and fell to the ground, a distance of twelve feet. He died at 3 o'clock in the afternoon of the same day from internal injuries received from the fall. Mr. Gill was an old resident of this place, a native of Ireland, aged 64 years. He was never married. He leaves a small estate, consisting of a mountain claim and some horses, etc.

H. C. Simmons, a stockman and rancher, is under arrest for stealing a band of hogs from Archie McAuley. The hearing was set for the 9th inst. F. H.

Startling Evidence.

Fresh testimony in great quantity is constantly coming in, declaring Dr. King's New Discovery for Consumption, Coughs and Colds to be unequaled. A recent expression from T. J. McFarland, Bentorville, Va., serves as example, He writes: "I had Bronchitis for three years and doctered all the time without being benefited. Then I began taking Dr. King's New Discovery, and a few bottles wholly cured me." Equally effective in curing all Lung and Throat troubles, Consumption, Pneumonia and Grip. Guaranteed by J. R. Mathews Drug Co. Trial bottles free, regular sizes 50c and $1.00.

HARDY, June 1, 1903.

EDITOR DISPATCH-DEMOCRAT: The correspondent from Perkins' Camp last week refers to the "Citizens' League" of Ft. Bragg as being against the advancement of labor. We think all will agree with him, and none are fooled by their printed by-laws, for the shortening of hours and increasing of the day's pay of those who toil. Even the workingman who joins it, if he reflects, will know better. The league shows its true colors in the closing lines of its statement of principles, when it attacks by name, the only organization which has for its object the same principles it professes to have. Its object is, it says, is to make labor unions obey the laws. It names no other class. It ignores corporations and the general public, but keeps its eye on the one that, according to the first part of its statement to the public, should be its ally. Does the man that belongs to the league not know that as soon as the unions are crushed and there is not any chance for them to organize again, the first part of the league platform, the part objectionable to the employers, will be eliminated, and leave only and make it stronger the clause antagonistic to the unions, so as to keep down all hope of any independence or of forming any society for mutual improvement and protection, and when that time arrives does the laboring member of the league think for a moment that he will be the good and true employee in the time of peril he is now?

Will the employers voluntarily raise his wages? Will there be any note of esteem and thanks, with a check, enclosed? These things only happen in times of peril. Have not the laboring members of the league something to be grateful for to the union? Without it none of these honors and prosperity would have come to them. When they have succeeded in crushing the unions forever, there will not be any times of peril, and this temporary prosperity will be followed, as it always has been where labor was not organized, with reduction of pay and lengthening of the day's work, and those who helped bring this to pass in the time of peril will soon be forgotten, and they and their children that follow them, will work side by side, and as time passes in increasing servitude with those who had once tried to better the condition of all. But the unions will not be crushed. They may lose at certain points temporarily. They have come to stay. The great middle class, the ones who decide all great questions, have passed on this in the East. And this class, who are only employers on a small scale, and are seldom an employee, make an ideal juror, and the verdict is that it is best for society and all concerned, including employers, that labor unions live and be recognized.

In the struggles that ensue until this time arrives and is recognized from ocean to ocean, these battles will grow less severe. There will not be any fear of destruction of property. There will not be any intimidation of any who wish to work. The verdict of this great middle class, which will have to stand, is that any persons have the right to organize for mutual benefit; employers have a right to discharge whom they please and all they please. Men have a right to quit work singly or in a body at any time. Men who wish to work during a time of differences may do so without interference other than persuasion. These are the principles which are bound to win; and the fact that a party of men happen to be foreigners, or the most of them, who strike on the principles involved at Ft. Bragg—which is the right of men to organize, as there are no other differences at stake there—should raise that foreigner in our estimation, for it shows he is a proper person to become an American citizen and has the independent spirit that gives to all men equal rights.

Sunday Night's Union Meeting.

Last Sunday night was the regular fifth Sunday meeting of all the churches in Ukiah represented in the Ministerial Union, held in conjunction with the W. C. T. U. The meeting was held at the M. E. church, south, and Rev. W. W. Pew of the Christian church was the principal speaker. The subject for the evening was "Social Purity" and Rev. Mr. Pew handled the question in a strong and at the same time an admirable manner. He dealt in practical facts of the day and clinched his arguments with unanswerable texts of scripture.

Hendrickson-Raina Marriage.

Otto Hendrickson and Miss Lizzie Raina, of Comptche, were married by Superior Judge White in his chambers, Thursday morning, June 4. The young people are natives fo Finland. Avit Olson, of Albion, and A. Peterson, of Comptche, were witnesses to the ceremony.

Officer Briggs arrested George Carter last Sunday for disturbing the peace at the Donahue house. Carter grabbed "Bob" by the finger and nearly pulled it off, but a swat from "Bob's" left subdued him and he was given thirty days by Justice Crockett Monday.

Mother's Girl.

There exists often a very beautiful companionship between the mother and her daughter. The intimacy is frank, free and sympathetic. But some day the mother feels as if something had chilled this intimacy. The child is silent and sad, and seems to shun her mother instead of seeking her.

This change very often occurs when the young girl is crossing the border line of womanhood. She is morbid, nervous, fearful, as she enters upon this new experience.

The use of Dr. Pierce's Favorite Prescription at such a time will do more than restore the normal balance of mind and body. It will establish the womanly function upon a basis of sound health, as well as improve the appetite, nourish the nerves, and promote the general physical health.

"Two years ago my daughter's health began to fail," writes Mrs. Dan Hall, of Brodhead, Green Co., Wis. "Everything that could be thought of was done to help her but it was of no use. When she began to complain she was quite stout; weighed 170—the picture of good health, until about the age of fourteen; then in six months she was so run down her weight was but 120. I felt I could not give her up as she was the only child I had, and I must say, Doctor, that only for your 'Favorite Prescription' my daughter would have been in her grave today. When she had taken one-half bottle the natural function was established and we bought another one, making only two bottles in all, and she completely recovered. Since then she is as well as can be."

Gray Hair

"I have used Ayer's Hair Vigor for over thirty years. It has kept my scalp free from dandruff and has prevented my hair from turning gray."—Mrs. F. A. Soule, Billings, Mont.

There is this peculiar thing about Ayer's Hair Vigor—it is a hair food, not a dye. Your hair does not suddenly turn black, look dead and lifeless. But gradually the old color comes back,—all the rich, dark color it used to have. The hair stops falling, too.

Judge of District Court Plainly Speaks His Mind.

It is with pleasure that I give my hearty endorsement to Dr. Pierce's Golden Medical Discovery. It is the most successful remedy that I know of for the weakened condition of the digestive organs which excessive heat or overwork sometimes brings, causing indigestion, sick headache, a disagreeable or bitter taste in the mouth, sleepless nights and a complication of unnatural conditions, making one feel sick all over. Your remedy is scientifically prepared and well calculated to renovate the entire system, cleansing and vitalizing the blood and assisting the stomach to perfect assimilation of the food, which will soon restore health and harmony.

Sincerely yours,

E. E. Willard

Judge of 11th District, Duval County, Florida.

The "Golden Medical Discovery" restores the long lost appetite; it strengthens the weak stomach and corrects the impaired digestion; it promotes the flow of digestive juices and facilitates the assimilation of the life-giving elements of the food into the blood. When the blood is pure and rich, old inert tissues are torn down, carried off and excreted, and new, healthy-muscular tissues replace them. In this way it puts on healthy flesh up to the normal weight and fortifies one against all disease-breeding germs. It allays inflammation of the mucous membranes, soothes the cough, facilitates expectoration, and deepens the breathing, supplying the system with a much needed stock of oxygen. It drives out all impurities and disease germs.

$3,000 Forfeit!

Will be cheerfully paid, in lawful money of the United States, by the World's Dispensary Medical Association, of Buffalo, N. Y., proprietors of Dr. Pierce's Golden Medical Discovery, if they cannot show the original statement and signature of every testimonial among the thousands which they are constantly publishing attesting the superior curative properties of their several medicines, and thus proving the genuineness and reliability of all the multitude of testimonials volunteered by grateful people, in their behalf.

"I feel it my duty to write you as I have received so much benefit from the use of your medicines," says Mrs. E. Sando, of Elon, Iowa. "I was troubled with torpid liver, indigestion, and nervous prostration, for about eighteeen months and lost strength so that I was unable to do any work. Consulted several doctors but without receiving help. They advised me to have an operation for gall stone, which I thought would be the very last step I would take. I then sat down and wrote to you for advice, some five or six months ago, and have since been taking your 'Golden Medical Discovery.' Can now say that I am well and able to do all my work, besides doing lots of weaving. In the last two months I have woven about four hundred yards of carpet and feel now that I will keep on with it as I like the weaving business so well. I took only eight bottles of the 'Golden Medical Discovery' and some of Dr. Pierce's Pleasant Pellets.

"I will be glad if I can say anything to those who are suffering as I did."

"I was taken sick nine years ago with fever." writes Mr. M. M. Wardwell, of Linwood, Leavenworth Co., Kans. "Had the doctor and he broke up the fever all right, but I took diarrhea right away; he couldn't cure it and it became chronic, and then he gave up the case. I got so weak with it and had piles so badly I couldn't lie down, nor hardly sit up. Was that way two or three months; thought I would 'never be well again,' but picked up one of Dr. Pierce's Memorandum Books one day and saw your description of catarrh of the stomach. I thought it hit my case. We had a bottle of Dr. Pierce's Golden Medical Discovery in the house that was got for mother. You recommend it for catarrh of the stomach, so I began taking it. The one bottle nearly cured me. I got two bottles next time and took one and one-half and was well. I haven't been bothered with diarrhea since."

A FEW PENNIES will pay the expense of mailing Dr. Pierce's Common Sense Medical Adviser. Send 21 one-cent stamps for the book in paper covers, or 31 stamps for the cloth-bound volume.

For chicken in mayonnaise select and cook a young fowl. Separate the meat from the skin and the bones and cut the meat into dice. Season lightly with salt, white pepper and celery salt. Make one and a half cupfuls of good mayonnaise dressing and whip into it one cupful of whipped cream. Dissolve one heaping tablespoonful of granulated gelatin in a little hot water and add to the dressing. Mix thoroughly with the chicken and pack in a jelly mold. Stand it on ice until firm, then turn out of the mold and serve on a bed of crisp young lettuce leaves.

Handle It Carefully.

Whenever a bureau drawer, a trunk or a closet is cleaned it is a good plan to wash the crevices with naphtha, says an exchange. A long spout oil can, kept for the purpose, accomplishes this very quickly. The fumes of the naphtha quickly evaporate, but not before they have done their work of extermination upon any insects or eggs that may be deposited in cracks or corners. This course, persisted in at regular intervals, will practically protect from moths, carpet bugs and other pests.

An Improved Cushion.

A new chair back or cushion lately seen in a shop resembles very much a large tea cozy and slips over the back of the chair. Nearly every woman and surely every man knows the horror of having the cushion cling to one's back when leaving a chair, so in this one respect the new cushion is looked upon as a relief, and then, too, it has in one side a large pocket where a book, paper or other light article can be slipped.

Prune Jelly.

Wash a pound of prunes and cook with one quart of water, a cupful of sugar, a piece of lemon peel and a stick of cinnamon till tender. Take the stones out and press the prune pulp through a sieve. To this add half an ounce of gelatin dissolved in a very little water and two gills of port wine. Mold and when unmolding garnish with thin slices of oranges.

Simple Home Remedies for Ailments That Don't Require a Doctor.

Every mother should be familiar with simple home remedies which can be used in times of need, which not pleasant to be always depending on a physician to ease every ache and pain.

To cure a ringworm rub the spot with milk from milkweed, which grows wild. In a few days if this is persevered in the spot will entirely disappear.

When milkweed is not to be had, put a copper penny in a tablespoonful of vinegar and let it remain until it becomes green; then wash the ringworm with this liquid several times a day until it disappears.

A sharp pain in the lungs or side can be driven away by applying vaseline and mustard in the proportion of two parts vaseline and one part mustard. Rub it together and spread on a piece of linen as you would an ordinary mustard paste. This is also excellent for a severe pain in the back of the neck and has been used with good results for breaking up influenza.

To break up a hard cold at the start take a hot mustard bath and go to bed, being careful not to take more cold afterward.

Flaxseed tea with plenty of lemon juice and loaf sugar is very soothing to sore lungs and will often cure a hard cough.

Cleaning Carpets.

Remove oil paint with very pure spirits of turpentine. The impure spirits leave grease spots.

To remove grape stains wash with warm soapsuds and a little ammonia water, sponging afterward with clear cold water.

For carpets infested with moths or carpet bugs try spreading a wet sheet on the carpet, then running a hot flatiron quickly over it. The steam will destroy both worms and eggs.

If the carpet is not to be taken up, it can be wonderfully cleaned and brightened by sprinkling a handful of dry salt over it, then sweeping carefully. Many expert generals of domestic science use tea leaves instead of the salt. Either method is excellent. Of course, all spots and stains should be taken out before the carpet is subjected to this dry cleaning process. The salt is a good moth preventive. Axminster and Turkey carpets should be swept always the way of the pile, so that the dust may be brushed out instead of into them.—Woman's Home Companion.

Apple Pie With Meringue.

Take one cup of apple sauce and rub through a sieve. Sweeten to taste and add a scant cup of milk, a tablespoonful of butter, yolks of two eggs and the white of one, beaten separately, and a little grated nutmeg and cinnamon. Line a deep pie plate or a shallow pudding dish with pastry, pour in the mixture and bake rather slowly until a knife blade run in will come out clean. Make a meringue with the other white of the egg and powdered sugar, flavored with lemon juice; spread over the pie when it is cool, then return to a very slow oven to harden and brown. Gooseberries may be used instead of apples.

Housekeeping Conveniences.

A boiler heated by gas which puts boiling water at your disposal in half the time usually required for the kettle to boil.

A self acting ice mold that winds shaved ice into dainty ice balls to be used about the salad, butter and other table dishes.

An apparatus for the hanging and readjusting of window curtains and draperies, a boon on sweeping days when such things must be got out of the way.

A new idea in spoons which, attached to a boiling pot, will keep the contents stirred at intervals and prevent scorching.

A Use For Dry Bread.

An orange pudding would use a little dry bread. Soak some slices in a pie dish in a little milk. Grate the rind of one or two oranges and squeeze out the juice. Beat half an ounce of butter, the yolk of an egg and one and a half ounces of sugar together. Add the juice and rind and stir well in. Pour the mixture over the bread. Bake for three-quarters of an hour in a slow oven. When almost done, beat the white of the egg to a stiff froth with a little powdered sugar, pile it on the top and brown lightly.

The Salad Season.

Use salads freely at this season of the year and stews of good green herbs, like spinach, sorrel and any potherbs. Healthy people eat dandelion greens as eagerly as healthy animals eat grass. They fill a want that nothing else seems to do. People were healthier in the old fashioned times when they gathered the greens from the good earth and cooked them as soon as they were gathered.

The said action is brought against you to obtain a judgment and decree quieting the title to the lands and premises set forth and described in the plaintiff's complaint which are situate in Mendocino County, State of California, to wit:

The northeast quarter of section 21, twp 19 n, r 15 w, M. D. M.; and determining the adverse claims of defendants and each of them in and to said lands, and that it be adjudged and decreed by said decree that the defendants have not, nor has any or either of them, any right, title, estate or interest in the lands above described, or in any part thereof, and that the title of the plaintiff thereto is good and valid, and that defendants and each of them be forever enjoined and debarred from asserting any claim whatever in or to said lands or premises, or any part thereof, and for such other and further relief as to this Court may seem meet and proper, all of which will more fully appear by reference to the complaint on file herein to which you are hereby referred for further particulars.

And you are hereby notified that unless you appear and answer the complaint as above required, the plaintiff will take default against you and apply to the Court for the relief demanded in the complaint.

Given under my hand and the seal of the said Superior Court of the said County of Mendocino, State of California, this 11th day of December, 1902.

[SEAL] HALE McCOWEN, County Clerk of Mendocino County and ex-officio Clerk of the Superior Court thereof. By A. HORTON, deputy clerk.

DECORATION Day always calls up reminiscences of the Civ war. Last week we read what purported to be a carefully written a and a good deal is said and written about it, in a very carele by a writer of reputation, in which it was asserted that the ple of today know much more about that gigantic struggle than did who lived during that fearful period and participated in it. They be received with credence by the generation that has grown up since 1865, but those who lived thru the struggle know that it is beyond question. No history has ever been written which gives to the younger generation even a faint conception of what that struggle was in all its horrible details. Neither pen, pencil nor cold type can express or depict it. The histories used in our schools are necessarily brief, and in numerous cases, incorrect. They convey wrong ideas, even of the greatest battles, and as to the thousands of minor details, which, tho small, were important at the time, they are silent. Take for instance the guerilla warfare in some of the border states. No conception of its extent, importance and bearing on the larger struggle between the main armies can be had by those who were not on the ground. And then, as to the great battles, there is much misinformation. It is to be deplored that the details of the war were written by biased and oft times uninformed pens. Their biased opinions and misstated facts have crystalized into so-called history, and our young people are being taught the thing that was not. The names of many of the greatest men of that period are either forgotten, or but a hazy and imperfect idea is had of their achievements, whilst the names of others, who did less, are well known and honored. There are mistaken notions all along the line. Take, for instance, the case of General Phil Sheridan. Most people think that he won all his reputation in the Shenandoah Valley, and he won it as a cavalry officer, when the fact is that he won all his stars before he went to that valley at all, and he won them largely as a commander of infantry, cavalry and artillery combined. It was as commander of a division of infantry and artillery, that he saved the day at Stone River, fought the battle of Chicamauga, and scaled the rough heights of Missionary Ridge. The famous black steed "Rienzi" upon whose strong back he rode from Winchester to glory later on, was named for a little village in Mississppi, south of Corinth, near which place Sheridan performed feats which first attracted attention to him as a brave, dashing and skillful officer.

M. G. L. DUPRAT has just issued in Paris a book on "The Lie," in which he gives so plain and simple an explanation of the phenomena of lying that we cannot refrain from quoting a few lines, particularly for the benefit of children. Monsieur Duprat lays down the proposition (which is self-evident as soon as understood), that the "lie is a psychophysiologic fact, as is shown by the neuromuscular modifications observed especially among untruthful children, and it is also a psychosociologic fact, as shown by lies due to social causes. * * * * * Habit renders lying easier by making less and less painful the neuromuscular inhibition inseperable from dissimulation of the truth, which must take place at the same time as the invention of the lie." How plain this is, and what a load it will lift from the minds of anxious mothers who are not certain about the veracity of their children. After this any mother can tell whether her child is a liar or not by the "neuromuscular modifications," especially if that child be untruthful. And the second statement is equally lucid and convincing. Many mothers have been puzzled to know why it is that habit renders lying easier. It is simply because the neuromuscular inhibition inseparable from dissimulation of the truth is made less painful to the liar. In short, it is like swimming, or climbing a tree; the more you practice it the easier you can do it. What a blaze of new light this throws upon the heretofore difficult subject. But the most instructive part of M. Duprat's book is that in which he explains how lying may be eradicated from the thot and practice of children of all ages. It is done by "the pacific extirpation of untruthfulness, as beneficent as the bloody extirpation of pretended heresies was maleficent," and that is to be done by scientific education. That is to say, for instance, teach your baby boy that he is an evolution from an original speck of protoplasm which chance found floating on the boundless ocean, which, by successive changes, due to environment and the demands of the struggle for existence, came up by a process requiring millions of years for development, from the infinitessimal moneron, thru the fish and the marsupial, finally to man. If this don't cure him of lying, try your slipper.

THERE was a tremendous welcome for Booker Washington when he returned this month to Tuskogee, Alabama, after his long tour of the West. The 1400 students of his institution marched out in procession to meet him, regardless of the sticky mud in the streets. And on this occasion, as at all other times when he makes a speech, Washington said things worth remembering. Referring to the $600,000 endowment made by Andrew Carnegie, he counselled the students to be humble over their good fortune. And he pointed out that mere gifts or financial strength would not accomplish the objects for which Tuskogee was founded, saying:

It is, rather, whether or not the student in the carpenter shop who is pounding a nail when no one is about, pounds that nail through, whether the student who is sweeping a room alone, sweeps out the corners and sweeps them clean. It is by such little things, done in the line of duty and of purpose when no one is looking, and done in the face of opposition and insult and discouragement, that success—the real success—will be won.

One does not need to be black, or even the least bit shady in skin, to profit by that admonition. It is no less an object of sound education to build up character than to build up mental ability. The boy or girl who is taught to do work thoroughly, whatever it may be, and whether or not any one is looking, is getting the best kind of instruction. Fidelity in great things is not to be looked for in those who are unfaithful in little things. In these days there is enough of teaching to make boys and girls smart, but not enough of the sort that aims to make them honest and true.—Sacramento Bee.

THUS far in our political, social and religious history, crudity and liberty have trotted along together. In fact the first seems to be the necessary complement of the second. In a vast and complicated machine, each part must perforce perform a certain fixed and definite duty, or part of the work of the machine as a whole. There can be no variation, no shirking, no choice of action. Every pulley, and cog, and sprocket, and valve and shaft, must do the thing, and only the thing, it was made and intended to do, and do it at the time and in the manner intended by its maker or there is imperfect work or failure. Perfection of government and liberty cannot exist together in a progressive nation. We may strive for, and gradually approximate perfection in governmental methods, but we must necessarily be constantly trying experiments to meet new and changing conditions. And as human wisdom has its limitations, we must register many failures. But if we make fast the ship of state firmly to a few fundamental principles, such as are enunciated in the Declaration of Independence and the Constitution, we can pay out or take in line as conditions may require without serious danger of total wreck. Upon this our safety as a free nation depends. Enthusiasm for the flag is well enough in its place, but that and liberty are not synonymous terms.

The value of orch products in California is $1,786 which is about $2,000 more than our production and nearly as much as all production of the precious metals.

Professor Loeb of the State University goes to Bolinas Bay this summer to try to find out "how life originated." It is greatly to be hoped that when he shall have found out, he will tell us about it in unambiguous terms, so that we may know all about it.

Congressman Theo. A. Bell has been up the Sacramento River with the Governor and the State and U. S. Engineers, inspecting that stream with a view to securing large appropriations from Congress for its improvements. This Mr. Bell promised to work for during the campaign and he is preparing to carry out his promise.

A reporter of the New York World has devoted an hour to a study of human nature in some of its lower forms, as illustrated by the fashionable afternoon crowd upon Fifth avenue. Within that hour he counted 1106 carriages, of which nineteen contained children and seventy-one contained dogs. We earnestly believe in using kindness toward all dumb animals, but when that misnamed kindness assumes the form of a maudlin sentimentality, to the neglect of motherhood, we consider it a distressing omen for the future of society and of the nation.

A curious thing happened in this office the other day. A business man of this city, who advertises quite extensively the year around, in both a general and a special way, came in and asked that an add for a certain specialty be dropped out for the present, giving as a reason for this order that the sales of the special goods referred to, had been so rapid that he was going to run out of stock before he could replenish his supply. This is no josh, but an actual fact, and the man was in earnest. He is not a niggardly advertiser. On the contrary he makes a study of advertising and keeps it up all the time. Who says advertising doesn't pay?

While we are on the subject of municipal reform in the matter of enforcing the ordinances of our city we may as well particularize a little farther. It is against the law to discharge firearms within the corporate limits but this is done right along. Not that it is the general custom; but every now and then; both in the day time and in the still hours of the night, reports of firearms ring out on the air. The people hear the reports, and wait to hear of arrests, but they hear them not. Then they wonder why such a law exists and is not heeded. The other day a citizen told us he heard a large number of shots in a single night, within the city limits, but so far as is known there was no inquiry about it, official or otherwise. This may be considered by many, a little thing, but it is the little things, thrown into an aggregate, that make up the attractiveness, or otherwise, of a town as a place of residence.

The executive committee of the Buildings Trade Council has endorsed the strike at Fort Bragg and requests all unions to refuse absolutely to handle or place any material that is manufactured or prepared by the Union Lumber Company until the concern recedes from its stand taken against the union. Out of sympathy the steamers Noyo and Lakme, lumber laden from Fort Bragg have been tied up at San Pedro by the Federal Lumber Union of that place. The law regarding the taking of passengers onto vessels at wharves only will be enforced, and no vessel, except licensed to do so, will be allowed to carry men to the scene of trouble. To an outsider the situation looks to be anything but satisfactory to the company and a general boycott would not be surprising. In such an event one of two things is inevitable—the mill to shut down or recognize the union. It is to be hoped that wise counsel will prevail and that employers and employees will get closer together and adjust their difference amicably and justly.—Pt. Arena Record.

His Last Hope Realized.

[From the Sentinel, Gebo, Mont.]

In the first opening of Oklahoma to settlers in 1889, the editor of this paper was among the many seekers after fortnne who made the big race one fine day in April. During his traveling about and afterwards his camping upon his claim, he encountered much bad water, which, together with the severe heat, gave him a very severe diarrhoea which it seemed almost impossible to check, and along in June the case became so bad he expected to die. One day one of his neighbors brought him one small bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy as a last hope. A big dose was given him while he was rolling about on the ground in great agony, and in a few minutes the dose was repeated. The good effect of the medicine was soon noticed and within an hour the patient was taking his first sound sleep for a fortnight. That one little bottle worked a complete cure, and he cannot help but feel grateful. The season for bowel disorders being at hand suggests this item. For sale by J. R. Matthews Drug Co.

UKIAH Business College

Great advantages offered to young men and women who wish to educate for business.

Preparatory Education Necessary

An ordinary English education will be all that is required on entering. Students found deficient in any of these branches will receive particular attention in those studies, and may graduate with as high honors by spending a little more time in the institution.

Individual Instruction

Our success in preparing our pupils for good paying positions is due largely to the fact that our scholars receive practical, individual instruction. We not only give a COMMERCIAL COURSE, but also a THOROUGH PRACTICAL BUSINESS TRAINING, that will fit all for good paying positions.

The Business Course Includes

Business mathematics, book-keeping, commercial law, banking, business forms and practic, letter-writing, spelling and good plain spencerian penmanship.

The Shorthand Department

Includes shorthand (Pitman system), typewriting (Smith Premier), spelling and business letter writing. No classes are formed; students may enter at any time. Our success in teaching can best be known by a personal interview with any of our pupils, whose names will be furnished upon application to the college.
